

## BOARD IN FAVOR OF SUGGESTION BY TRI KAPPAS

The proposal of the Tri Kappa sorority of the Twin Cities that a dental clinic be established in the schools has met with hearty support of both the members of the board of education and a number of the dentists of the city. Preparations are now being made for at once getting the clinic started and it is expected that the clinic work will be well under way before the first of the month.

The board of education are so heartily in favor of the dental clinics that they have offered to purchase the necessary equipment for the examination of all pupils. Already eighteen dentists have expressed their willingness to co-operate if practicable and effective plans can be worked out. The Tri Kappas will furnish the money for the necessary materials.

Acting upon the advice of the school nurses who have volunteered to help in the undertaking the examinations will begin with the children in the sixth grade and continue down through the lower grades as far as time and funds will permit. This will

mean that as a beginning there will be examined 178 sixth grade children in the Riley and Washington buildings and 189 in the McKinley and Garfield. The dentists will set a time to suit their convenience and the board of education has agreed to release the children from classes during the time required for examinations. It is planned to have examinations twice a year. Following the examinations the sorority will follow up by securing permission of the parents of the children for needed extractions, fillings and cleaning of the teeth and in cases where the parents are unable to pay will guarantee payment to the dentist. This payment will be only for the materials since the dentists have volunteered their time. The sorority will also keep records of each child.

A substitution was also necessary for the other speaker of the program Mrs. Edna Thomas Gordon substituting for Mrs. Fletcher Doherty. Mrs. Gordon comes from Iowa and had some information of interest on the outlook in that state. A number of the county candidates were on the platform. There was a large attendance, about half of whom were women.
